

R. E. Yrausquin & Sons presents the Mitsubishi Lancer for 2008

The island car distributors of R. E. Yrausquin & Sons is known for the annual dramatic introduction of the new models of Mitsubishi Lancer, the sport car line of the famed Japanese brand. This year, Directing Manager Juan David Yrausquin felt that no such fanfare were necessary, as the completely new redesigned Lancer EX is dramatic enough on its own. Mitsubishi expert Orol Henriquez and Natalie Lacle-Yrausquin ably assisted him in showing-off the two beautiful new models this past Thursday.

Employing the appropriately elegant backdrop of the Tierra Del Sol Country Club and Golf Course the new model Lancers for 2008 were introduced to Aruban press members, which were also allowed to test drive the racy automobiles around the grounds of the residences. Of particular note in the 2008 models were increased engine size in the Lancer G.T., increased car length, and greater stability in the frame, a necessity in a more powerful car. The new Lancer body has been reinforced at key points, and a stylish new headlamp design contributes to the feeling of driving a sleek sports car.

Additional options include 18-inch tires with alloy sport rims and four-wheel disc brakes. A new four-wheel independent suspension with MacPherson struts and a rear multi-link system provides greater safety and control in unpredictable conditions. The new larger body provides more legroom, and a large trunk can be increased to carry long loads by pushing down the back seat, a particularly well thought out new feature of all models. Many aspects of the new Lancer indicate a great deal of thought in the new design towards, safety, comfort, and convenience for every type of driver, including family use. The demonstration of a dynamite sound system that will knock your socks certainly caught everyone's attention during the unveiling!

This coming Saturday, August 18, R.E. Yrausquin has organized a special event at their L.G. Smith Boulevard showroom on the outskirts of Oranjestad, where the public will have the opportunity to test drive the new Mitsubishi Lancer for 2008 at a special low price. Doors will be open from 9:00 AM until 1:00 PM. It is highly likely that after having test driven the dynamic new car, quite a few Lancers will be seen on Aruba's roads. For more information about the car and taking a test drive, contact the dealership at 582-3475 or visit their website www.reyson.com.
